27TH ANNIVERSARY: FACULTY OF HUMANITIES

by IROUNMO

The Rector of the University, Prof. Dr. Alena Huseinbegovic, and the President of the Olympic Committee of Bosnia and Herzegovina, Prof. Dr. Izet Radjo, signed a cooperation memorandum to create a framework for the joint development of sports. Through this memorandum, both parties commit to strengthening their partnership to educate athletes, develop Olympic sports, and organize joint scientific and professional workshops.

They also plan to integrate the future Sports-Educational Center into the campus life, further supporting researchers, lecturers, and the University's sports initiatives.

RENOVATED BASKETBALL COURT AND OUTDOOR GYM

By IROUNMO

The University marked the opening of its renovated basketball court and outdoor gym with a friendly match between students and representatives from Sportradar. This event showcased enhanced recreational and sports facilities for students, staff, and the wider community.

Sportradar financially supported the project, enabling the University to renovate the court and equip the recreational spaces. As part of the project, the University installed protective fencing and improved and furnished the areas surrounding the court, creating better conditions for classes, sports activities, and recreational use by students and the public.

The University opened the renovated sports court and outdoor gym to all students, staff, and residents. By doing so, it promotes sports, healthy lifestyles, and more effective use of campus facilities.

EDUGAME SUMMER SCHOOL 2026

By IROUNMO

The second Erasmus+ EduGAME Summer School, titled VR Story Design Challenge, brought together more than 150 students from Bosnia and Herzegovina and abroad. It took place at the Dzemal Bijedic University of Mostar from March 23 to 27, 2026. During the five-day program, more than 100 students from the Dzemal Bijedic University of Mostar and over 50 international participants attended lectures, workshops, mentoring sessions, and engaged in team-based project work. The program covered topics including game design, gender representation in educational games, and the application of artificial intelligence in education. The central event of the Summer School, EducaThon: VR Story Design Challenge, engaged students in team-based work, where they developed virtual reality storytelling solutions with the support of mentors. In addition to academic activities, participants explored the cultural and historical landmarks of Mostar. The Summer School concluded with student project presentations, an award ceremony, and the presentation of certificates.

First place: Team 1, Dzemal Bijedic University of Mostar

Second place (shared): Team 2, Dzemal Bijedic University of Mostar and the University of Bihac

Third place (shared): Teams from the University of Tirana and the University of Sousse

ERASMUS INFO DAY

By IROUNMO

The Erasmus Info Day was held on March 17, 2026. from 12:30 to 13:30 at the Faculty of Humanities of the Dzemal Bijedic University of Mostar. The Vice Rector for International Cooperation opened the event. The official programme started with the video prepared by the International Relations Office. The video focused on the nomination procedure at Dzemal Bijedic University of Mostar. Students who have already been on a mobility presented their experiences and gave tips on what to pay attention to when nominating. Both Lana Hadziabulic and Tarik Kreso's final message was that mobility was a once-in-a-lifetime experience and that students should not be afraid of it, even if they were the only students nominated. They answered questions regarding their experience and provided a few tips on what to pay attention to when applying, as well as during mobility. During the Erasmus info day, students and staff had the opportunity to watch video testimonials from Adnan Turajlic, Sejla Grcic, and Mirza Bajramovic, students currently on mobility, as well as from Ida Tursic, a student who implemented her mobility. Erasmus Info Day was organized within the Erasmus+ CBHE project ESN-AIR - "Engaging Students for eNhancing internationalization practices in the Adriatic-Ionian Region".

LEARNING TO KNOW EUROPEAN SPORTS CULTURES

By IROUNMO

Students and staff from the Dzemal Bijedic University of Mostar joined Saarland University (Germany) in a two-phase ERASMUS+ Blended Intensive Programme, Learning to Know European Sports Cultures. During the first phase, held from 23 to 27 February 2026 at Saarland University, students Stela, Faris, Emrah, Dino, Emre, and Tarik from the Department of Sport and Health of the Faculty of Education, together with Vice-Rector for International Cooperation Prof. Dr. Rijad Novakovic and Teaching Assistant Amel Jazvin, explored German sports culture. They attended lectures, participated in practical activities, and gained insight into the system of elite and school sports development in Germany. They also visited an Olympic training centre, meeting with the director and elite German athletes. In the second phase, held in Mostar from March 9 to 13, 2026, the Dzemal Bijedic University of Mostar hosted students and staff from Saarland University. During this phase, participants explored the sports system in Bosnia and Herzegovina, including its organisation, challenges, and development opportunities. They exchanged experiences, engaged in intercultural learning, and strengthened cooperation between students and academic staff. This mobility programme strengthens international cooperation, facilitates knowledge exchange, and promotes sport as a key component of European identity.

27TH ANNIVERSARY: FACULTY OF HUMANITIES

By IROUNMO

The Faculty of Humanities at the Dzemal Bijedic University of Mostar marked its 27th anniversary with a formal program held in the amphitheatre on Wednesday, March 25, 2026. Opening the event with an artistic segment and a recital, Adna Blagajac moderated the program. Afterwards, the Dean, Prof. Dr. Edim Sator, and the Rector, Prof. Dr. Alena Huseinbegovic, delivered their addresses. During the ceremony, the Faculty awarded the Dean's Awards to its most successful students in recognition of their hard work, dedication, and academic excellence. As part of the program, the Faculty also presented awards within the 'Towards the Future' initiative, launched at the students' proposal to recognize and support promising high school students. The Faculty concluded the ceremony by thanking all participants and guests and reaffirming its commitment to further development as an center of humanities education.
