International Day of Charity

The International Day of Charity, observed annually on September 5th, represents a global call to action to foster philanthropy and altruism. This day celebrates the remarkable contributions made by individuals and organizations worldwide, showcasing the power of generosity in addressing pressing issues.

Charity, in its various forms, plays an indispensable role in addressing poverty, hunger, education gaps, and healthcare disparities. On this day, communities unite to raise awareness, mobilize resources, and support humanitarian efforts. From grassroots initiatives to large-scale campaigns, the International Day of Charity serves as a reminder that small acts of kindness can make a significant difference.

Suicide Prevention Awareness Day

By IROUNMO

Every year, on September 10th, people around the world come together to observe World Suicide Prevention Day, a day dedicated to raising awareness about the critical issue of suicide and fostering efforts to prevent it. This day serves as a poignant reminder that suicide is a global concern that knows no boundaries, affecting individuals, families, and communities everywhere.

The heart of this observance lies in its mission to promote open dialogue about mental health, reduce stigma, and offer support to those struggling with suicidal thoughts. It's a day to highlight the significance of early intervention and the role each of us can play in saving lives.

In recent years, there has been a growing recognition of the need to address mental health challenges head-on. World Suicide Prevention Day is a part of this broader movement, encouraging us to reach out to friends, family, and even strangers who may be experiencing emotional distress. It reminds us that a compassionate conversation can be the first step towards preventing suicide.

One key aspect of this day is the illumination of iconic landmarks and buildings in a special shade of yellow or orange, symbolizing hope and resilience. These displays serve as visual reminders of the urgent need to prioritize mental health support.

Furthermore, various organizations, communities, and mental health advocates organize events, workshops, and seminars on this day to educate the public about the warning signs of suicide and how to provide effective help. It's a day when governments, healthcare institutions, and civil society groups come together to discuss strategies for suicide prevention and promote mental health policies.

While World Suicide Prevention Day is just one day on the calendar, the conversations and actions it inspires must continue year-round. Mental health awareness and suicide prevention are ongoing responsibilities that demand our attention. By working collectively, we can create a world where fewer lives are lost to suicide, where compassion and understanding prevail, and where mental health support is readily available to all.

World Tourism Day

By IROUNMO

Every year on September 27th, World Tourism Day takes center stage, celebrating the transformative power of travel and tourism on a global scale. This observance recognizes the role tourism plays in fostering cultural exchange, economic growth, and understanding among nations.

Tourism has the potential to uplift communities, generating jobs and revenue while showcasing the richness of diverse cultures. As destinations worldwide open their doors to visitors, this day reminds us of the need for responsible travel, sustainable practices, and the preservation of natural and cultural heritage.

World Tourism Day encourages travelers to explore, learn, and appreciate the world's beauty while leaving a positive impact on the places they visit.

"Antalija" student dormitory

By IROUNMO

On the first of September, "Dzemal Bijedic" University of Mostar officially opened the "Antalija" student dormitory. The name "Antalija" is a symbolic gesture, expressing gratitude to the Turkish city of Antalya, which played a crucial role as the primary financial supporter.

This student dormitory can house approximately 180 students, spanning five floors. It boasts 22 well-equipped, modern apartments, along with the inclusion of a student clinic, a psychological counseling center, and healthcare services provided by the Stari Grad Health Center.

The Students' Union had proposed the establishment of a psychological counseling center and a student clinic to the Commission for Student Standards. The commission's objective was to make a student clinic and psychological counseling center available to students.

Both the psychological counseling center and the student clinic will be situated within the new Antalija Student Dormitory, ready to serve students at the commencement of the upcoming academic year.

The Antalija Student Dormitory is designed to offer students a quality, enjoyable, and inspiring living experience—an ideal destination for a fulfilling student life.

Sustainable energy and innovations

By IROUNMO

UNMO awarded certificates to participants who completed some of the offered courses at the Faculty of Mechanical Engineering of the Džemal Bijedić University of Mostar on Saturday, September 9th. The courses were part of the KALCEA project and the professional program "Sustainable Energy and Innovations."

The courses were designed and conducted in a modern and interesting way. In addition to the theoretical lessons they attended, the participants also visited the Salakovac hydroelectric power plant and the Podveležje wind park. They got to know a hybrid energy system based on renewable energy sources at the Faculty of Mechanical Engineering. This system significantly improved through the KALCEA project, will contribute to better practical education in the future.

The theoretical and practical lessons in these courses focused on studying the transition to sustainable and green energy, as well as, connecting industry, higher education institutions, and research centers in the field of renewable energy sources and the low-carbon economy.

SMART WB PROJECT

By IROUNMO

Strengthening of relations between the Western Balkan HEIs and non-academic sector in climate-smart urban development

The SmartWB project, with its overarching goal of enhancing the quality of higher education in the field of climate-smart urban development (CSUD), strives to bolster its pertinence to the labor market and society. It aims to fortify relationships among Higher Education Institutions (HEIs) in Western Balkan partner countries—namely Albania, Bosnia and Herzegovina, and Montenegro—and the economic and social environment.

This goal will be accomplished by creating a technological platform designed to promote collaboration, facilitate the sharing of knowledge and experiences, and encourage the adoption of best practices. Simultaneously, the project aims to enhance the competencies and skills of teaching staff while modernizing university courses to align with the current trends in the European Union (EU).

The objective is in accordance with the priorities of the Capacity Building projects under the Erasmus+ program, particularly the Green Deal initiative.

Visit of the Sakarya University delegation

The Sakarya University delegation from Turkiye visited the Dzemal Bijedic University of Mostar on Saturday, September 16, 2023.

At the meeting, among other things, the delegations of the two higher education institution have discussed the opportunities and practices at the Universities in Bosnia and Herzegovina and Turkiye, as well as the past and future cooperation. In addition, the representatives of the two Universities discussed possible areas and directions of future cooperation, as well as the implementation of joint projects.

Vice-Rector prof. dr. Emrah Dogan, Vice-Rector prof. dr. Ozer Uygun, dr. Tuba Tatar, dr. Hakan Demir were the represented Sakarya University was made up of the, while the Vice-Rector for education, prof. dr. Azra Spago and Vice-Rector for international cooperation prof. dr. Rijad Novakovic represented the Dzemal Bijedic University of Mostar.
