## Tips for incomings: Transportation

by IROUNMO

Mostar is a small city located two hours away from Sarajevo, so if you are interested in coming to the “Dzemal Bijedic” University of Mostar, it could be useful for you to read this article.

The best option is to fly to Sarajevo airport and here are some recommendations. At the airport you can take a taxi to the central bus station. It is located around 20 minutes away from the airport. Arriving there you have two options: taking a train or a bus. But if you want to enjoy the view, you should definitely take the train.

If your city does not have connections to Sarajevo, the next suitable option is Dubrovnik or even Split. The Croatian cities are as well located two hours away from Mostar. From there you can come by the bus, but don't be surprised if the connections are not as frequent as from Sarajevo.

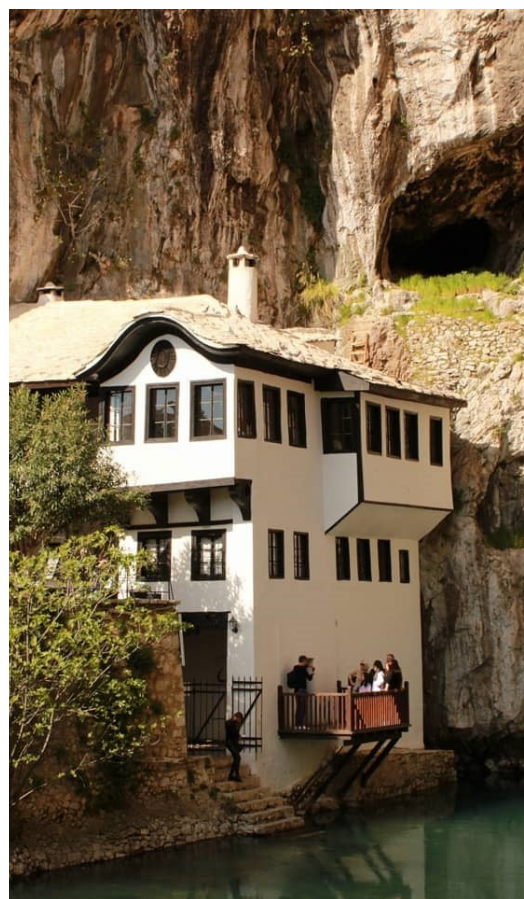

Spending your stay at the Students Hotel is an option for accommodation and you don't have to worry about the distance since you will have to walk only 5 minutes to get there from the bus station. But if you want to find an apartment of your own, you can contact the IRO UNMO.

Maria Carolina Loayza Alarcon is the first intern at the International Relations Office of the “Dzemal Bijedic” University of Mostar. She shared her experience for our first edition of the IroMag.

### 1. *Mention one thing you dislike and one thing you like about Mostar?*

Mostar is a beautiful city, unfortunately, the thing that I dislike the most is the trash that ruins the natural landscape. The thing that I like the most about Mostar is the contrast of nature with ancient architecture, it gives the city a magical essence.

### 2. *Why did you decide to do an internship abroad? And how do you think it will help you personally?*

I decided to make an internship abroad because I wanted to experience another culture. Meeting a new culture is always enriching, it opens your mind to hear stories and lose your innocence.

### 3. *What is your favorite thing about your work?*

What I like the most about my job is the space that I have for creativity. I'm allowed to experiment with ideas and that makes me happy because this way I have improved my skills.

### 4. *How does this internship helps you in your future career?*

The work experience and the improvement of my skills are not the only aspects that will help me in my future career. I'm sure, that the impact of this cultural exchange will be reflected in the way I will manage future problematic situations and it will more certainly shape my personal and professional decisions.
